

# As Long As There's A Heartbeat

Tanya Tucker

There's a full moon up above tonight  
But I don't know if it will always shine  
And I can't say tomorrow it won't rain  
One thing that I know will never change

As long as there's a heartbeat keeping me alive  
And day turns into night and there's stars up in the sky  
As long as there's a heartbeat keeping me alive  
I'll give all my love to you

Through good and bad you stand right by my side  
Through all the ups and downs we face in life  
We'll grow old and silver haired someday  
Youth may pass but love will still remain

As long as there's a heartbeat keeping me alive  
And day turns into night and there's stars up in the sky  
As long as there's a heartbeat keeping me alive  
I'll give all my love to you

Time goes by it can make you feel alone  
The future's so uncertain  
But there's one thing you should know

As long as there's a heartbeat keeping me alive  
And day turns into night and there's stars up in the sky  
As long as there's a heartbeat keeping me alive  
And I'll give all my love to you, I'll give all my love to you
