

Let The Good Times Roll

Tanya Tucker

It opens up with the same old scene
You pushing me on that tire swing
Up so high I could almost touch the sky

The picture fades to you and me
Caught stealing a kiss behind the tree
It's so real it's like you never said goodbye

Every night I turn the lights down low and take out that old video
I hold your pillow close in the TV's glow and let the good times roll

The road moves on and it always will
But I can make time stand still
I can turn it back and make things just the same

And though you're gone, you're still here
You're far away but always near, I can see your face
And hear you call my name , freeze frame

Every night I turn the lights down low and take out that old video
I hold your pillow close in the TV's glow and let the good times roll

When it comes to an end, I can play it all again
You went away but the good old days are here to stay

Every night I turn the lights down low and take out that old video
I hold your pillow close in the TV's glow and let the good times roll

Now it's time to turn the lights down low and let the good times roll
Let 'em roll
