

Let The Good Times Roll

Tanya Tucker

It opens up with the same old scene
You pushing me on that tire swing
Up so high I could almost touch the sky

The picture fades to you and me
Caught stealing a kiss behind the tree
It's so real it's like you never said goodbye

Every night I turn the lights down low and take out that old vi
deo
I hold your pillow close in the TV's glow and let the good time
s roll

The road moves on and it always will
But I can make time stand still
I can turn it back and make things just the same

And though you're gone, you're still here
You're far away but always near, I can see your face
And hear you call my name , freeze frame

Every night I turn the lights down low and take out that old vi
deo
I hold your pillow close in the TV's glow and let the good time
s roll

When it comes to an end, I can play it all again
You went away but the good old days are here to stay

Every night I turn the lights down low and take out that old vi
deo
I hold your pillow close in the TV's glow and let the good time
s roll

Now it's time to turn the lights down low and let the good time
s roll
Let 'em roll
