

## Love Knows We Tried

Tanya Tucker

It's time to pack up all the dreams and walk away  
No matter what our hearts might say  
Now we know we're at the end of a love  
So it's foolish to pretend, why try

We cried clinging to each other tenderly  
We were the best that we could be  
Through the sweet and gentle years  
And now after all these tears we cried

Love knows we tried  
Love knows we tried  
We gave it all we had and more  
Love knows we tried  
We've got the memory and someday we may see

Goodbye doesn't mean we really didn't try  
So you can hold your head up high  
And as I walk away from you knowing well  
We did all that we could do inside

Love knows we tried  
Oh, love knows we tried  
Love knows we tried  
Love knows we tried
