

Smell The Flowers

Tanya Tucker

Yesterday oh how many do you wish you could relive
Turn the page and go back oh I wonder what you'd give
Looking back does it seem when you've planned when you've dream
ed

You forgot the most important thing
Smell the flowers while the roses bloom take the time my friend
and sing a happy tune

Oh how precious every mile so take a minute learn to smile
My friend let's stop a while and smell the flowers (smell the f
lowers)

Got a troubled mind friend if you let too much worry rule your
days

When you look back do you feel like something precious slipped
away

Oh my friend are you the man that the world slip through his ha
nds

Can you remember when you smelled the flowers

Smell the flowers...

Smell the flowers...
