You've Got Me To Hold On To

Tanya Tucker

Don't it make life just a little more special Knowin' you've got someone who cares You won't ever have to be lonely Always has somebody there

Don't it make everything a little bit easier Knowin' you have someone like me A hand to take you to the light When it gets a little bit too dark to see That's when I like to stop and remind you

You've got me to hold on to, baby (You've got me to hold on to, you've got me) Oh, you've got me to hold on to (You've got me to hold on to, you've got me)

Yes, and don't it make every chance worth taking Even when you try and fail Don't it make all the pain worth aching Look around and find somebody there

Oh, and don't it make everything a little bit easier Knowin' you have someone like me A hand to take you to the light When it gets a little bit too dark to see That's when I like to stop and remind you

You've got me to hold on to, baby (You've got me to hold on to, you've got me) Oh, you've got me to hold on to (You've got me to hold on to, you've got me) I've got you, I've got you

High and low, happy or sad You know I'm gonna be right there Sharin' your smiles, dryin' your eyes Anytime and anywhere

'Cause you've got me to hold on to (You've got me to hold on to, you've got me to hold on to) Oh, you've got me to hold on to, baby (You've got me to hold on to, you've got me to hold on to)

Oh, you've got me to hold on to, honey (You've got me to hold on to, you've got me to hold on to) You've got me (You've got me to hold)
