

## All My Heart

### Tapping the Vein

There's faster ways of killing me  
If you needed me to bleed  
You didn't have to give my angel those broken knees

And if you felt you had to punish me  
You could have taken anything  
You didn't have to hang my little angel from a string

I've been calling all night  
And there wasn't any answer  
Something inside me won't let go  
I believe my life is over  
This is all that my heart can take

I could have found a way of working this out  
All you had to do was say  
Did you really think that I would rather  
See my light go down in chains?

I've been calling all night  
And there wasn't any answer  
Something inside me won't let go  
I believe my life is over  
This is all that my heart can take

Say he rolled over  
Say he's alive  
Say it's not over  
Say it's a lie

Something inside me won't let go  
I believe my life is over  
This is all that my heart...

I've been calling all night  
And there wasn't any answer  
Something inside me won't let go  
I believe my life is over  
This is all that my heart can take
