A Kiss from the Sky

You all ..the beating path Stop into a field of dying leaves of grass So thick, I have to use my hands It's only sinking in quick sand! Pull away I can see again ..with the kiss from the sky

.. I know a secret way Unclear the reason why I'm going hopes to find

...and you close into the waters edge ...I pray a miracle Lay me down with a kiss from the sky

..I know a secret way
Unclear the reason why
I'm going hopes to find
...
..I know a secret way
Unclear the reason why
I'm going hopes to find
