

## Around the Bend

Taproot

Around The Bend Lyrics

by Taproot

Inside, I feel

No need to breathe

The knife cuts a coldful arc

Intend to leave a mark

Don't let eyes see

And around the bend, the circle remains an end

And around the bend, the circle remains a friend

And around the bend, the circle remains a test

And around the bend, the circle remains an end

In the ... I am ...

Capture the ... dream

Down when we move to ground

...all around, and through words, I see

And around the bend, the circle remains an end

And around the bend, the circle remains a friend

And around the bend, the circle remains a test

And around the bend, the circle remains an end

And the ... he ...them under

Of broken glass, a drop will cure the ...

With the questions takes my breath away

Looking for another day

And around the bend, the circle remains an end

And around the bend, the circle remains a friend

And around the bend, the circle remains a test

And around the bend, the circle remains an end

Feel the place I ... alone undressed

...burns and walks with me

Don't feel... street.
