

Everything

Taproot

Grown up an only child
One parent home my style was spoiled and doubted
Untrusted neglected by others around

You saved
You saved me

You were the only one there for me
Loved me dearly treated and supported me right through the thick and the thin

Look at me now
I hope you're proud
You're everything to me

Taught to be myself
Showed independent
Health alone through struggles made it work
Ourselves just a mother and child
