

I Will Not Fall for You

Taproot

Well I hear a voice of faith
Resignate a belief in choice with no way to escape
It's a ploy to weaken the sense of joy and bury us
Separates the good of evil
Placing shame on helpless people
Stabbing hate infectious needles shallow forces spreading seeds
will
Feed the flame of ignorance takes away our freedom to say

I will not fall for you

No

I see a fingers' point
But not that use ostracizing noise with a narrowed view
It's okay the rest of us feel the pain now we're free to say

Separate yourself from all of the hating people who want to take you down say
I will, I will not, fall for you
