

Smile

Taproot

Smile.

Can't you see I am still me
anti-authority,
same philosophy,
enjoying life as much as I can I will.

Trying to create that contagious smile,
with that passion that I long to,
succeed in my ways.
Days pass by
I'm not gonna sit here
no more, no more, no more.
More, no more, no more, no more, no more

Won't you see you are not me,
why would you want to be,
you're an individual,
on your own do
what you want,
'cause you want to.

Trying to create that contagious smile,
with that passion that I long to,
succeed in my ways.
Days pass by
I'm not gonna sit here
no more, no more, no more.
More, no more, no more, no more, no more

Trying to create that contagious smile,
with that passion that I long to,
succeed in my ways.
Days pass by
I'm not gonna sit here
no more, no more, no more.
