

Take It

Taproot

I gave it a chance I walked on glass
And what did it get me
Nothing
I opened up I showed you love
Why couldn't I see this
Coming
I've made mistakes but you take the cake
But it's bitter so take it

The end of days
A forceful change
I've tried my best
You were never there for me

You broke my back and played me
You won just by driving me crazy
You know i'm gone but maybe
There's still another breath of life out there for me

I played the same, but you changed the game
I'm not gonna take it
Sitting
I'll be the man, the better man
The bitter is sweet when you taste when
Standing

A sacred life
Has been denied
I've tried my best
You would never care for me

I hear what you say,
I've seen my mistakes
And I know i'm okay
Cause you're driving me crazy
