

## Take It

Taproot

I gave it a chance I walked on glass  
And what did it get me  
Nothing  
I opened up I showed you love  
Why couldn't I see this  
Coming  
I've made mistakes but you take the cake  
But it's bitter so take it

The end of days  
A forceful change  
I've tried my best  
You were never there for me

You broke my back and played me  
You won just by driving me crazy  
You know i'm gone but maybe  
There's still another breath of life out there for me

I played the same, but you changed the game  
I'm not gonna take it  
Sitting  
I'll be the man, the better man  
The bitter is sweet when you taste when  
Standing

A sacred life  
Has been denied  
I've tried my best  
You would never care for me

I hear what you say,  
I've seen my mistakes  
And I know i'm okay  
Cause you're driving me crazy
