

# Wherever I Stand

Taproot

If only I could show you  
Just how much I really care  
Everyday I'm torn apart  
Not knowing if you're even there

Yet again  
You're a testimony  
Now and then  
That a greatness occasionally can come along

Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall

Whether fast or slow  
If only I could know you  
So every way I feel  
A part of something like you always do

Yet again  
You're my sanctuary  
How and when  
That a greatness eternally does come along

Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall

Wherever I stand,  
Wherever I stand  
You'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall

No matter where  
No matter how  
I know that you'll be  
There by my side  
It feels so right

The sting you share  
The fact I'm found  
I know more about  
What lies inside us gives me life

Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one

Who'll be there to break my fall

Wherever I stand,

Wherever I stand

You'll be right there with me

Wherever I land

You're the one
