

## Dry Land

Tara MacLean

Looks like something's coming  
Looks like there's gonna be a storm  
Looks like everyone's running  
Looks like everyone is torn

Hands to blades  
As daylight fades  
Hold this shaking hand

Swimming from dry land  
Swimming from dry land

Looks like everyone's broken  
Looks like everyone's lost  
Look at all the money we're making

We don't even see what it's cost  
Hands to guns  
As night time comes  
Hold this shaking hand

Swimming from dry land  
Swimming from dry land  
Looks like war in the valley  
Looks like war in the sky  
Looks like war on the playground

First thing you learn is to lie  
Hands to skies  
For morning's rise  
Why can't we start again

Swimming from dry land
