

# Innocence

Tarja Turunen

You're not alone below the moon  
All of us wait, for moment's gone too soon  
You and me, breathe, to ignore the reason  
Freedom  
Scream again

Inside of me, doors will stay open  
A thousand lives to live  
Waiting like universes do without an end  
Love break into my innocence  
Innocence, innocence, innocence  
Innocence, innocence

Stay close to me  
Everything you knew  
Left with the wind  
In times like this we do  
You and me, breathe, to ignore the feeling  
Freedom  
Scream again

Inside of me, doors will stay open  
A thousand lives to live  
Waiting like universes do without an end  
Love break into my innocence  
Innocence, innocence, innocence  
Innocence, innocence

Inside of me, doors will stay open  
A thousand lives to live  
Waiting like universes do without an end  
Love break into my innocence  
Innocence, innocence, innocence  
Innocence, innocence  
Innocence, innocence, innocence  
Innocence, innocence
