

Neverlight

Tarja Turunen

Neverlight
Into the shadow of my darker side
Where no one finds me

How I die is when you save me
Are you terrified enough
To watch me go?

I guard the boundaries of your world

Don't make my inside fall apart
A prison I don't need
Where no one even hears your heart
Insanity

Neverlight
Forever after in eternal night
I fall to pieces

Did I lie?
To form a proposition
Cast aside in my condition now

Oh, I
I guard the boundaries of your world

Don't make my inside fall apart
A prison I don't need
Where no one even hears your heart
Insanity

So far away from me
Don't make my inside fall apart
A prison I don't need
Where no one even hears your heart
Insanity
