Neverlight

Tarja Turunen

Neverlight Into the shadow of my darker side Where no one finds me How I die is when you save me Are you terrified enough To watch me go? I guard the boundaries of your world Don't make my inside fall apart A prison I don't need Where no one even hears your heart Insanity Neverlight Forever after in eternal night I fall to pieces Did I lie? To form a proposition Cast aside in my condition now Oh, I I guard the boundaries of your world Don't make my inside fall apart A prison I don't need Where no one even hears your heart Insanity So far away from me Don't make my inside fall apart A prison I don't need Where no one even hears your heart Insanity
