

# The Archive of Lost Dreams

Tarja Turunen

Far from the light  
To reach beneath a veil of mist  
Countless stories  
Were left to rest in peace

Darkened and calm  
The grave uncared  
Once a haven filled with hope  
The archive of lost dreams

We send our inner fears  
For the ocean to score  
Waiting it takes them all  
Away from the shore

Deepest beliefs  
From billions of souls  
Longing for our wishes  
To find a way back home

Ah, Naiad  
The last one in the unknown  
The keeper of our written dreams  
Ah, promises  
None of them were left behind  
She blessed them with her kiss

See, hear and feel  
The miracle of life  
Believe the signs  
And trust you'll stay alive  
Descend to find  
The depth of your heart

Mysterious Naiad  
Now the circle's closed forever  
Ah, Naiad  
The archive is gone  
We are on our own
