

Tired of Being Alone

Tarja Turunen

Once, you dreamed of me, twice
you wished that i'd pull you out
you chose your life, and put me down
still you don't understand

Tired of being alone

what you have dreamed
is not what i am
so far
let me be the one
please understand me
how i am
but i don't want , to walk alone
i need your hands to warm my soul

Tired of being alone
Tired of being alone

i will do my best
to become your love
i'll try
to fill the emptyness
in our hearts
also tired of being alone

Tired of being alone
i want to feel , i need to fall in love with you
Tired of being alone
