

Live Hard Die Hard

Tarot

There's a sign, there's a star,
it rises over the sea
There's a voice that calls in whisper
and it might set you free
The pain has a lesson to teach
and we always get taught
Every joy is a forbidden fruit
and we always get caught

Live hard, you can make it
Die hard, set yourself free
Live hard, you can make it

Your soul is a miracle
It glows brightly to my eyes
but you won't raise your stare
to the light beyond the skies
Don't you wanna learn, don't you wanna burn
don't you wanna find out
we still have time enough
to know what it's all about

Live hard, you can make it
Die hard, set yourself free
Live hard, you can make it

The days go by melting to a gray line
in the dead of the night there's a short relief
You gotta wake up, I've given you the sign
I've shown you the way, just take my hand

Live hard, you can make it
Die hard, set yourself free
Live hard, you can make it
