

Pilot of All Dreams

Tarot

Assume a shape, take a wing
An alien lover, superconducting.
On every moon and star,
I've gone too far

I close my eyes, and I'm up there.
In the black skies and everywhere.
Bring ya sights to raise your hair.

THE PILOT, THE PILOT, THE PILOT
OFF ALL DREAMS

I've seen the wonders of the molten flesh.
The "Thing" and the "Fly" through "Predator's" eye.
At every quantum leap,
The terrors also creep.

I close my eyes, and I'm up there.
In the black skies and everywhere.
Bring ya sights to raise your hair.

THE PILOT, THE PILOT, THE PILOT
OFF ALL DREAMS

Time will take you to your grave, but still you remain
The sum of what you were. Particles in flow
Onward to void they go. Never free of pain.
The privilege of existence never let's you go.

i close my eyes...
