

I Think Of You

Tata Young

When I'm down and all alone
When nothing seems to matter
When I lose my hope
When I'm sad and confused

When it all gets turned around and 'round
I can't seem to reach for solid ground
When everything I've believed in seems untrue
All I have to do

Is think of you
I think of you and it's gone
Like you chase away the storm
Making it all okay
I think of you
I think of you and I'm strong
And I know I can go on
It's like you set me free
When life gets the best of me
I just think of you

Now I know what love means
And whatever life may hold for me
Through the fire
Through the rain I believe

Cause there's nothing I can't bear
Knowing that you will be there
If I fall I won't break
Through it all I'll make it through
Cause all I have to do

And when I think I'm all alone
I can't see the way to go
Lost in the rain of my own tears
To wash away the pain and fear

For the good times and the bad times
I just think of you
Cause you know you get the best of me
I just think of you
