

# I Want Some Of That

Tata Young

First time I saw you  
You looked at me and I could barely breathe  
Couldn't keep my eyes off you  
There was something in you that did something to me  
I just knew I had to know your name  
There was something about you, babe  
And I said

I want some of that  
I need some of that  
Yes, I'd love some of that love you've got, baby  
I crave some of that  
Wanna taste some of that  
Won't you give some of that love to me, baby

I walked behind you  
Watching each move that your body made  
Wished I was walking beside you  
There was something in you that stole my heart away  
I just knew I needed you so bad  
You had something I had to have  
And I thought

Want some of that love  
Need some of that love  
Love some of that love

You were everything that I wanted next to me  
What could I do  
I had to get with you  
Get you into my life

Now you're here with me  
And I see that look in your eyes tonight  
I know you can't wait to kiss me  
No it won't be too long 'till I'm holding you tight  
In a moment you'll reach out for me  
And that moment will be so sweet  
When you say

I want some of that
