Clowns (Can You See Me Now?)

Can you see me now? Can you see me now? Can you see?

All this weeping in the air, Who can tell where it will fall? Through floating forests in the air 'cross the rolling open sea

Blow a kiss, I run through air Leave the past, find nowhere Floating forests in the air Clowns all around you.

Clowns that only let you know Where you let your senses go. Clowns all around you It's a cross I need to bear

all this black and cruel despair This is an emergency Don't you hide your eyes from me Open them and see me now

Can you see me now? Can you see me now? Can you see?
