Games we don't want to play Same winner everyday Kill for the second best Feel no more, feel no less

We have our minutes cut
We lose our feelings but
That's what the movies show
This is where stories go

Stars we don't want to reach Scars we don't want to stitch Go where we haven't been Fly away, time machine

Cloud we will chase him out Crowds, we will face them down This is our secret place Outer space, outer space

Our home forever is outer space Black stars and endless seas, outer space New home, new destinies, outer space Forever we'll be in Outer space, outer space

Ground we don't want to feel Found what they didn't steal Time, we were really lost Bridges burnt, fingers crossed

We, shall we ever be Free, with no guarantee Life on another plane Same before, same again

Go where you want to go So no one ever knows Only what we decide Is it gone, has it died

Dry every tear in my Eye, you can tell me why This is our secret place Outer space, outer space

Our home forever is outer space Black stars and endless seas, outer space New home, new destinies, outer space Forever we'll be in Outer space, outer space

Outer space is where we get together And this place we're meant to be Stars are dancing and the time is fading Dead forever You and me, you and me

Racing stars and common moons are planets In the cosmos, we are free There's no atmosphere and no obsessions It'll always be It'll always be

Our home forever is outer space Black stars and endless seas, outer space New home, new destinies, outer space Forever we'll be in Outer space, outer space

Our home forever is outer space Black stars and endless seas, outer space New home, new destinies, outer space Forever we'll be in Outer space, outer space
