Dangerous and Moving

You take it all away But never give it back And this is what you say Their lives are yellow black

And this is how they move And this is how they sway That danger is the truth They die and come again

Obstacles and signs Perilous and looming Dangerous and moving Dangerous and moving

Obstacles and signs Perilous and looming Dangerous and moving Dangerous and moving Dangerous and moving

No mercy for the lost No soothing for the sad The line is never crossed They are the living dead

And this is how they move And this is how they sway That danger is the truth They die and live again

Obstacles and signs Perilous and looming Dangerous and moving Dangerous and moving
