## Fly on the Wall

When you're naked in the shower When you're sleeping for an hour When you're big, when you're small Oh, I wish I was a fly on the wall

When you're with her after midnight When you kiss her in the dim light When you break Barbie doll Oh, I wish I was a fly on the wall

Wanna see who you are Every inch, every scar

From your head to your toes I would be there From your bed to your clothes I'm in the air

When you think you're alone I'll be down the hall I could see it, if I was a fly on the wall What you do in your room I could see it all You undress, I wish I was a fly on the wall, yeah

For the drama that you're drinking And the dark thoughts you are thinking And the love notes that you scrawl Oh, I wish I was a fly on the wall

Silently I arrive You don't know I'm alive

From your head to your toes I would be there From your bed to your clothes I'm in the air

When you think you're alone I'll be down the hall I could see it, if I was a fly on the wall What you do in your room I could see it all You undress, I wish I was a fly on the wall, yeah Wish I was a fly on the wall, yeah Yea-eah

Ever closer, ever nearer When you're looking in the mirror I would know who you called If I was a fly on the wall

From your head to your toes I would be there From your bed to your clothes I'm in the air When you think you're alone I'll be down the hall I could see it, if I was a fly on the wall What you do in your room I could see it all You undress, I wish I was a fly on the wall, yeah Wish I was a fly on the wall, yeah Yea-eah

From your head to your toes I would be there From your bed to your clothes I'm in the air What you do on your own I could see all When you think you're alone I would crawl

When you think you're alone I'll be down the hall I could see it, if I was a fly on the wall What you do in your room I could see it all You undress, I wish I was a fly on the wall, yeah
