

# Prove Your Love

Taylor Dayne

Prove your love  
Got to prove your love

I hear all about what you can do  
But I got to know  
Is it true  
Your telling me to trust  
What should I believe  
You promised so much  
But talk is cheap  
You tell me that you're serious  
But I gotta know for sure  
You say how much you want me  
But I've heard it all before

Prove your love, gotta prove your love  
If you want to be with me tonight  
Show your stuff, cause words are not enough  
I want to hear your body talk to mine

Boy I can feel a love is on the rise  
A message revealed in your eyes  
You know I can't wait  
To know your passion  
It's not to late  
So take some action  
Can you say that when you're through  
I'll know what love is all about  
Well, baby I've been patient, now  
I'm ready to find out

Prove your love, gotta prove your love  
If you want to be with me tonight  
Show your stuff, cause words are not enough  
I want to hear your body talk to mine

You can tell me that your serious  
But I gotta know for sure  
You say that you want me  
But I've heard it all before  
Prove your love gotta prove your love  
If you want to be with me tonight  
Show your stuff, cause words  
Are not enough  
I want to hear your body

Prove your love, gotta prove your love  
If you want to be with me tonight  
Show your stuff, cause words are not enough  
I want to hear your body talk to mine
