Say A Prayer

Taylor Dayne

Say a little prayer for you Say a little prayer for you Well, I remember when You were my only friend

You took the time When on one else cared You gave love endlessly And then you proved to me

No matter what You'd always be there And now I understand Just how life's little plan

Can make it rough to say forever But you've been there for me So that's my guarantee That we will always be together

When I have sleepless nights That's when you hold me tight You do it right I say a little prayer for you

And when my dreams are through I only think of you 'Cause you do it right I'll say a little prayer for you

We've had good times that's true We've had our bad times too But through it all It makes us stronger

We'll have to build our trust Because it means too much To give away to any other And now I understand

Just how life's little plan Can make it rough to say forever But you've been there for me So that's my guarantee That we always be together

I say a little prayer for you Alright, come on Say it, say it, say it, say it Alright, say a prayer Alright, come on I'll say a little prayer for you Say it, come on I'm prayin' I'll say a little payer for you

And now I understand

Just how life's little plan Can make it rough to say forever But you've been there for me

So that's my guarantee That we will always be together I say a little prayer for you I will Say a little prayer for you So far away My baby, my love
