

# Up All Night

Taylor Dayne

Up all night  
With thoughts I can't escape from  
All the things you said  
It's a one-way street this dead-end situation  
Keeps running through my head

Now the thrill's gone  
You're moving on  
You say you really love me  
But you must be going  
It's too bad

It's too (damn) sad  
But not enough to make me want to cry  
Somewhere there's a man who needs me  
Not someone who runs and leaves me  
Up all night

All those nasty games you're playin'  
Make me sick and tired of stayin'  
Up all night  
Now I can't calm down  
You got my senses reelin'

How could you say good-bye  
It's 4 a.m.  
I'm staring at the ceiling  
Can't seem to close my eyes  
But I'll be fine in time

I'll find another lover, boy  
And you'll be sorry  
I'll be alright  
I'll sleep tight  
Till the break of dawn

I can think of better things to do  
Countin' stars  
Instead of counting on you  
There'll be someone in my life  
To hold me close

When we're up all night  
But I'll be fine in time  
I'll find another lover, boy  
And you'll be sorry  
I'll be alright

I'll sleep tight  
Till the break of dawn
