Whatever You Want

Taylor Dayne

Whatever you want me to do I will it for you Whatever you want me to be I will be what you need

Because it's vibes that I feel Whenever you're really near I'm feeling sensual I can't deny in myself

I'm wanting you and no one else
You've got me ruptured
Uh huh cause time takes and love heals

Wherever we are I know that it's real Whatever you want me to do I will do it for you Whatever you want me to be

Yeah, yeah
I will be what you need
Because it's love that I feel
Whenever you're really near

I'm feeling sensual
But now I know, I know that it's real
Hey hey hey hey
Oh oh oh yeah

I know you've got flames in your heart
That tore you apart
I know you've been safe on your own
Yeah

But together we're strong Because it's love that I feel Whenever you're holding me I'm feeling passionate

I can't deny in myself
I'm wanting you and no one else
You got the power, uh huh

'Cause love takes and time steals And deep in my heart I know that it's real Whatever you want me to do

I will do it for you Whatever you want me to be I will be everything Because it's love that I feel

Whenever you're next to me I'm feeling sensual And now I know, I know that it's real Yeah Whatever you want me to do
Whatever you want me to do
Oh, cause time takes and love heals

Wherever we are I know that it's real I know, I know that it's real Yeah, whatever you want me to do

I will it for you Whatever you want me to be Yeah, I will be everything

Whatever you want me to do I will it for you Whatever you want me to be What you need

Whatever you want me to do Baby baby I will do if for you I'm feeling sensual
