

Already Gone

Taylor Henderson

A million miles
And a world away
(World away)

City lights
Through the night
Make the stars
Seem out of place

Chasing the hours but losing the days
Some things never change

'Cause I'm already gone
And when I'm home
I know it's not for very long
'Cause I'm already gone
But on the road
I know just where my heart
Where my heart belongs
Where it belongs
Map out a path
And tie it with string
When I'm too far from home
Hold on and pull me in

I can't find you
A million smiles
But it's not your face
Not your face

City lights
Blur the lines
Steal the breath
That I need to take

Chasing the hours but losing the days
Some things never change

'Cause I'm already gone
And when I'm home
I know it's not for very long
Cause I'm already gone
But on the road
I know just where my heart
Where my heart belongs
Where it belongs
Map out a path
And tie it with string
When I'm too far from home
Hold on and pull me in
