

# Worth Fighting For

Taylor Henderson

I can't erase  
I can't rewind  
I see your face forever in my mind  
Forever in my mind

You lit a fire  
It's burning bright  
The love grenade has set my heart alight  
My heart alight

This love is like a war  
It's taken hold of me  
It's cut me to the core  
But darling can't you see

That you're worth fighting for for for  
That you're worth fighting for for for

This love has taken prisoner on my heart  
It's got hold on me  
There's no escape and there's no breaking free  
But darling can't you see  
That you're worth fighting for

I don't regret  
A single day  
Since we met half a world away

I cross the sea  
I fight the tide  
Whatever comes I'll be on your side  
Be on your side

This love is like a war  
It's taken hold of me  
It's cut me to the core  
But darling can't you see

That you're worth fighting for for for  
That you're worth fighting for for for

This love has taken prisoner on my heart  
It's got hold on me  
There's no escape and there's no breaking free  
But darling can't you see

That you're worth fighting for  
That you're worth fighting for  
Know you're worth it  
You're worth fighting for

This love has taken prisoner on my heart  
It's got hold on me  
There's no escape and there's no breaking free  
But darling can't you see

That you're worth fighting for for for

That you're worth fighting for for for
