

# Honey Don't Leave L.A.

James Taylor

That limousine  
In which you made the scene  
Suits you to a t  
If all the you want to be  
Is somebody that don't never walk

That big chateau  
Where you wanna go  
In the south of France  
Gonna end our big romance  
Don't you do it

Honey don't leave L.A.  
That Riviera is so far away  
Begging you s'il vous plait  
They don't know nothing down in St. Tropez  
Baby don't leave L.A.

I heard it said that you had it made  
With you movie star  
But, oh, how right you are  
If that's really 'bout the best you can do  
You moved my soul  
So I played the role  
Of your back door man  
Yes and now I can't really complain  
'cause I love you

Honey don't leave L.A.  
That Riviera is so far away  
Begging you s'il vous plait  
They don't know nothing down in St. Tropez  
Baby don't leave L.A.
