

# Nothing Like a Hundred Miles

James Taylor

I have tried to forget about you  
And all the plans that we had planned  
Yes, and I'm bound to leave this town  
I don't care where I may land

If what they're telling me is true  
And you have found somebody new  
To love you  
There ain't but one thing I can do, baby  
To save my heart from being broken in two by you  
Baby, I'm moving through

There's nothing like a hundred miles  
Between me and trouble in my mind  
There's nothing like a hundred miles  
Show me the yellow line  
There's nothing like a hundred miles  
When I'm only passing through  
There's nothing like a hundred miles  
To make me forget about you  
Forget about you, baby

Don't we like our fond farewells  
And don't we like to keep our good-byes  
Nice and clean  
You may wish I'd go to hell  
While you tell me what a pleasure it's been  
So long, baby, I'm moving on

There's nothing like a hundred miles  
Between me and trouble in mind  
There's nothing like a hundred miles  
Somebody show me the yellow line  
There's nothing like a hundred miles  
When I'm only passing through  
There's nothing like a hundred miles  
To make me forget about you  
Forget about you

I have tried to forget about you  
Baby, I have failed  
Just as long as I stay in Houston  
I will
