

# Only for Me

James Taylor

Down the end of this barroom,  
Out of sight of the light in the window  
His mind in his whiskey  
And his body in a folding chair  
Far beyond repair  
I enter his vision  
He watches me look for my seat  
He makes his decision  
And he stands to his feet  
Lord, it's a long way down

It happened to me  
Wonderful sight  
Only for me  
Only for you  
It happened to be a light shining through  
Form one who was lost and found  
Just like me and you

Old man says, "Young man, my you're looking  
Pretty Green  
Like a stranger to this kind of place  
Come sit at my table  
Come and look into my face  
I've got a story to tell."

"There was a father and son  
But that was a long time ago  
And when the time came to run  
I just couldn't say no  
So I left them behind."

It happened to me  
Wonderful sight  
Only for me  
Only for you  
It happened to be a light shining through  
Form one who was lost and found  
Just like me and you

We have seen it before  
In times of great sorrow  
That human compassion will flow from a well  
That has long run dry

It happened to me  
Wonderful sight  
Only for me  
Only for you  
It happened to be a light shining through  
Form one who was lost and found  
Just like me and you
