(The Man Who Shot) Liberty Valance

James Taylor

When liberty valance came to town the women folk would hide they'd hide when liberty valance walked around the men would step aside because the point of a gun was the only law that liberty understood when it came to shooting straight and fast he was mighty good

From out of the east a stranger came a law book in his hand a man the kind of man the west would need to ease a troubled land because the point of a gun was the only law that liberty understood when it came to shooting straight and fast he was mighty good

Many a man would face his gun and many a man would fall the man who shot liberty valance he shot liberty valance he was the bravest of them all

Now the love of a woman can make a man stay on when he should go stay on just trying to build a peaceful life where love is free to go but the point of a gun was the only law that liberty understood when it came to shooting straight and fast he was mighty good

Alone and afraid she prayed that he'd return that fateful night that night when nothing she said could keep her man from going out to fight but the point of a gun was the only law that liberty understood when the final showdown came to pass a law book was no good

Out in the sun two shots rang out the shots made liberty fall the man who shot liberty valance he shot liberty valance he was the bravest of them all
