

# You Make It Easy

James Taylor

Gosh almighty baby  
Yes, indeed  
You supply the satisfy and I'll supply the need  
I can't help the way I feel though I know just where it leads  
You make it easy (yes, you do)  
For a man to fall, for a man to fall

Heaven knows I love my woman  
Just bound to fuss and fight  
Now I wind up on the barroom stool  
Buying drinks and keeping tight  
But you know I've never done  
What's come in my mind tonight  
You make it easy just sitting there looking good  
For a man to fall, for a man to fall

Now me and my wife  
We've got the rest of our life  
To make this thing right  
But you and me will only see tonight

So baby, won't you turn me down and point me out the door  
I'll head home and sleep it off just like every time before  
You keep on lookin' good my way  
I won't hold out anymore  
You make it easy, you sure do make it easy, baby  
For a man to fall, for a man to fall

You don't have to make it so easy, baby , no,no,no  
For a man to fall  
For a man to fall  
For another wise good man to fall  
You don't have to make it so easy, baby  
For another wise good man to fall  
You don't have to make it so easy, baby
