

What To Wear

Taylor Swift

She's lookin' in the mirror
Moment's gettin' nearer
She thinks about it as she walks her walk
Up and down the staircase
Make up fresh on her face
She thinks about it as she talks her talk

School dance, first chance, always been a dreamer
There's one guy, she's shy, sees him through the mirror
And everybody looks at her
She thinks about it

Blue dress, angel face, looking in the mirror
Shoes, purse, hair tied back and you should see her
She's got her magic floating through the air
Peace, love, one thing leads into another
Dream big, aim small, man you gotta love her
She's got her hopes up
Got 'em up to there
Wonderin' what to wear

She's standin' in her bedroom
He'll be pullin' up soon
She thinks about it as she sees headlights
Lookin' out the window
She's got a diary to show that she's been waiting for this all her life

First date, can't wait, lookin' in the mirror
Heart all wrapped up, wait until he sees her
He's lookin' right at her
She thinks about it

Sixteen, blue jeans, Abercrombie t-shirt
Shoes, purse, hair tied back and you should see her
She's got her magic floating through the air
Peace, love, one thing leads into another
Dream big, aim small, man you gotta love her
She's got her hopes up
Got 'em up to there
Wonderin' what to wear

The years went by, the mirror saw her cry
She got up again, she got up again
The wind blew by, the small town lights
She got up again

Move out, find out where the world can take her
Bright lights, late nights, livin' for the greater
Move to Paris, livin' on a prayer
Peace, love, one thing leads into another
Dream big, aim small, man you gotta love her
She's got her hopes up
Got 'em up to there

She's got her hopes up
Got 'em up to there
Wonderin' what to wear
