

# What To Wear

Taylor Swift

She's lookin' in the mirror  
Moment's gettin' nearer  
She thinks about it as she walks her walk  
Up and down the staircase  
Make up fresh on her face  
She thinks about it as she talks her talk

School dance, first chance, always been a dreamer  
There's one guy, she's shy, sees him through the mirror  
And everybody looks at her  
She thinks about it

Blue dress, angel face, looking in the mirror  
Shoes, purse, hair tied back and you should see her  
She's got her magic floating through the air  
Peace, love, one thing leads into another  
Dream big, aim small, man you gotta love her  
She's got her hopes up  
Got 'em up to there  
Wonderin' what to wear

She's standin' in her bedroom  
He'll be pullin' up soon  
She thinks about it as she sees headlights  
Lookin' out the window  
She's got a diary to show that she's been waiting for this all her life

First date, can't wait, lookin' in the mirror  
Heart all wrapped up, wait until he sees her  
He's lookin' right at her  
She thinks about it

Sixteen, blue jeans, Abercrombie t-shirt  
Shoes, purse, hair tied back and you should see her  
She's got her magic floating through the air  
Peace, love, one thing leads into another  
Dream big, aim small, man you gotta love her  
She's got her hopes up  
Got 'em up to there  
Wonderin' what to wear

The years went by, the mirror saw her cry  
She got up again, she got up again  
The wind blew by, the small town lights  
She got up again

Move out, find out where the world can take her  
Bright lights, late nights, livin' for the greater  
Move to Paris, livin' on a prayer  
Peace, love, one thing leads into another  
Dream big, aim small, man you gotta love her  
She's got her hopes up  
Got 'em up to there

She's got her hopes up  
Got 'em up to there  
Wonderin' what to wear
