## What To Wear

**Taylor Swift** 

She's lookin' in the mirror Moment's gettin' nearer She thinks about it as she walks her walk Up and down the staircase Make up fresh on her face She thinks about it as she talks her talk

School dance, first chance, always been a dreamer There's one guy, she's shy, sees him through the mirror And everybody looks at her She thinks about it

Blue dress, angel face, looking in the mirror Shoes, purse, hair tied back and you should see her She's got her magic floating through the air Peace, love, one thing leads into another Dream big, aim small, man you gotta love her She's got her hopes up Got 'em up to there Wonderin' what to wear

She's standin' in her bedroom He'll be pullin' up soon She thinks about it as she sees headlights Lookin' out the window She's got a diary to show that she's been waiting for this all her life

First date, can't wait, lookin' in the mirror Heart all wrapped up, wait until he sees her He's lookin' right at her She thinks about it

Sixteen, blue jeans, Abercrombie t-shirt Shoes, purse, hair tied back and you should see her She's got her magic floating through the air Peace, love, one thing leads into another Dream big, aim small, man you gotta love her She's got her hopes up Got 'em up to there Wonderin' what to wear

The years went by, the mirror saw her cry She got up again, she got up again The wind blew by, the small town lights She got up again

Move out, find out where the world can take her Bright lights, late nights, livin' for the greater Move to Paris, livin' on a prayer Peace, love, one thing leads into another Dream big, aim small, man you gotta love her She's got her hopes up Got 'em up to there

She's got her hopes up Got 'em up to there Jištěno z www.txp.cz Wonderin What to wear
