Team Me

These clever phrases you made up  
Made up and memorized  
Memorized  
And you pretend you're well-read  
but everyone knows the truth  
Knows the truth

Way too caught up in yourself  
You run while the others walk  
While the others talk  
At your feet lies a pearl  
The key to your everything  
Your tragedy

When the preacher shuts his books  
and speaks straight from his heart  
You suddenly see all  
Suddenly feel all

As the four winds get a hold  
of every bone you own  
You suddenly see her  
Suddenly feel
