Had a slug bug chasin' em
Spin em before they spun

Defacin em like county property

Spittin' on your whole image, I rob you and make a mockery
Yo ya see that party by haus cucasimenas
Trife on that ass
Who better hit the ground fizast
Fuck that financially
Fatal stable satanically
Mash on your little stash niggaz testin' the family
Play the eddie cane with your petty game
Breakin' ya un-ready friend when you fuck with who-freddy sein
Nigga dip off blood, I get that back and let the free fall
Hit ya with six shots, let you in bail ass hits off
Fatal hussein, from the cradle to the grave
Tokin' like big suge till every label know my name
And they ask 'what's up with yak and who shot pac?
And who rode on you tryin' to test the block'

Put the coo to your 40 brew
Brothers on the loose
Nothing new 'cause we let em out
If we fight or shoot
All you hoes weak
And I know do you wanna roll
With these thugs livins

Verse 4
[juicy j]
Now it is time to get rough with the drama
Bitches you cannot escape from the heart-a
Evil scarecrow
Devil spells go
Deep in my soul
Put on my clothes
I scrip little hands and I must squeeze the whelpin'
Listen to sounds of the lit when we step in
F from us comes from the south territory
Listen to some of my d-money poetry
Circles a trip, plus it's me smokin' ganja
Rich almost ripped tear by these on the furniture
So many soldiers are coming to destroy you
Six million sinister satanic warriors
Ill still feel drill will kill ninni-milli flama philly
I will fill the enemy with up by twenty slugs
To the mug, four more tricks in the mud quick
I want all my tear da club thugs to rip this shit
Chorus (fades out)
