

Coffin Eyes

Tear Out the Heart

Another night well spent with more blood
Than time on my hands
No matter how hard I try
I can't forgive, I can't forget

What's done is done
One grave with more to come
What's done is done
Nevermore, nevermore

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light
When we're all born with coffin eyes

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light
When we're all born with coffin eyes

To cut a long story short
Slit your throat and bleed yourself dry
At least I could rest easy knowing
It won't snow where you're going

What's done is done
One grave with more to come
What's done is done
Nevermore, nevermore

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light
When we're all born with coffin eyes

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light
When we're all born with coffin eyes

There's nothing I'd like more
Than to see you squirm

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light
When we're all born with coffin eyes

Bury us alive
We're six feet deep
And dying to live tonight
We can't see the light

When we're all born with coffin eyes

Coffin eyes

We're all born with coffin eyes
