Break It Down Again

Tears For Fears

So those are my dreams And these are my eyes Stand tall like a man Headstrong like a horse

When it's all mixed up Better break it down In the world of secrets In the world of sound

It's in the way you're always hiding from the light See for yourself you have been sitting on a time bomb No revolution maybe someone somewhere else Could show you something new about you and your inner song And all the love and all the love in the world Won't stop the rain from falling Waste seeping underground I want to break it down

Break it down again

So these are my schemes And these are my plans Hot tips for the boys Fresh news from the force

When it's all mixed up Better break it down In the world of silence In the world of sound

" No sleep for dreaming" say the architects of life Big bouncing babies, bread and butter can I have a slice They make no mention of the beauty of decay Blue, yellow, pink umbrella save it for a rainy day And all the love and all the love in the world Won't stop the rain from falling Waste seeping underground I want to break it down

Horsin' around Pray to power Play to the crowd with your big hit sound And they won't simmer won't simmer, won't simmer down Play to the crowd Play to the crowd Play yeah yeah

It's in the way you're always hiding from the light Fast off to heaven just like Moses on a motorbike No revolution maybe someone somewhere else Could show you something new to help you With the ups and downs I want to break it down Break it down again

Break it down again

No more sleepy dreaming No more building up It is time to dissolve Break it down it again No more sleepy dreaming
