

Elemental

Tears For Fears

This race is already run
Get off your horse
Get on this train
Welcome to the real world
I said, Welcome to the real world
Are we rushing like the wind
Naked out and naked in
Welcome to the free world
I said, Welcome to the me world
Are we rushing like the wind

Put your lovin' arms around

Did you lose your faith in God, no
Does your conscience always get you down
Fall to pieces
Rough and tumble
Does your conscience always get you down

These days it's all in the mind
It's elemental
Don't say you're up when you're down
It's elemental

Put your lovin' arms around

This your new year's resolution
Put your lovin' arms around
Nothing doing revolution
Put your lovin' arms around

Take another leap in the dark
With a humble heart
Do yourself some good
What did you become
Patience
Be sure
Baby
Baby

These days it's all in the mind
It's elemental
Don't say you're up when you're down
It's elemental
