## **Killing with Kindness**

## **Tears For Fears**

Don't cry for me my baby Don't say a word Everyone knows you're a dangerous bird

Fly like a golden eagle Sleek like the snow Ticking your time bomb where ever you go

You're sinking a line without a trace With elegant crimes against the state

Killing with kindness yeah Making the most of the mess oh yeah You're mother and childless yeah, yeah Just kill them with kindness yeah, yeah

Bye cruel politician Now you've been caught Came from behind It's a dangerous spot

Green are the seeds of envy Watch how they grow Everyone knows there's a fire down below

You're sinking a line without a trace With elegant crimes against the state

Killing with kindness yeah Making the most of the mess oh yeah You're mother and childless yeah, yeah Just kill them with kindness yeah, yeah

Killing with kindness Raising the ghost from the flesh oh yeah Don't blind them with science yeah, yeah Just kill them with kindness yeah, yeah

Turn your back And you might understand Become your destiny And you'll be a lucky man Don't let anything stand in your way
