

Awkward

Tech N9ne

Yeah

Heh

I'm just gon' tell a couple stories

Real quick

Shit that I think is pretty awkward, you know what I'm sayin'?

Check it out

Kickin' it up in Salt Lake City

'Bout to be doing a show and the boss stay really

Loving a nigga I think it's because I'm becoming a killer forever

The piece of my thoughts weight gritty

But one day someone say

Why does he gotta be closin'

I am the one with the frozen flow and pockets bulging

Fair ground it was a explosion

I told the promoter to hold up

And I told him I came to rock, give the famous spot

To the man that claim he hot

Twenty-two thousand people saw me make the Planet Rock

But when I was done nigga the show was done

Right when he took the stage everybody runs

And the outcome was three hundred folks set his show

So I'm at the shino and it was

Awkward, situation is absurd

Irregular and awkward

Such a feeling is, not heard

In my circle when it's awkward

Situation is absurd

Irregular and awkward

Such a feeling is, not heard, awkward

Great sex, thanks Tech

Thats what she say, I grab the latex

Off of me, and throw it away to be safe

And I give her the getaway-look and I say softly

We gotta move, my bus is leaving

I guess that wasn't a good enough reason

To have to go, I gave her a shirt

Not my jersey, I know it hurts

And then I heard call somebody saying come and get me

Grab the gun that's with me that's a no-no

You came and you leaving solo, keep it dolo

Making the walk of shame then I let her out the front

I was in the crunch when the person standin' at the door

Said I'm her husband man we love you

And this is what she really wants

Awkward, situation is absurd

Irregular and awkward

Such a feeling is, not heard

In my circle when it's awkward

Situation is absurd

Irregular and awkward

Such a feeling is, not heard, awkward

Awkward, situation is absurd

Irregular and awkward
Such a feeling is, not heard
In my circle when it's awkward
Situation is absurd
Irregular and awkward
Such a feeling is, not heard, awkward
